Bradleys' Electric Motors Presents New Hire Randy Maddux

Randy Maddux comes to us from Dow Chemical / Union Carbide where he spent thirty plus years . His experience encompasses six years Electrical Engineering Design and Group Leader for Instrument and Electrical Design in a Chemicals and Plastics Plant Engineering environment. He also has twenty five years in the Electrical Maintenance Group specializing in Electrical Rotating Equipment, Drive Systems and Power Conversion Devices. During this tenure he acquired his Six Sigma Black Belt certification in 2004.

He has also served ten years as a member of the API 541 AND 546 Standards development committee and an Ad Hoc on IEEE 841. He earned a B.S.E.E. from Lamar University in 1976 and in 1993 became a licensed Professional Engineer in the state of Texas.
